

Seniors Choice

INTRODUCING SENIORS CHOICE

Seniors Choice is a group retiree Medicare program that was created over 30 years ago to help groups of all sizes manage increasing medical costs not covered by Medicare. Seniors Choice is not a standalone Medicare Supplement or Medicare Advantage plan. This plan is designed to coordinate benefits with Original Medicare parts A and B to cover the remaining costs.

Seniors Choice is a Group Retiree Medical Plan that must be sponsored by your group to be made available to your retirees. This sponsorship is key to opening up another choice to your retirees which otherwise would not exist. Absolutely no financial obligation exists to an employer to sponsor the program. **Below are some of the key features and reasons why Seniors Choice is one of the best plans on the market today:**

Nationwide Coverage No Networks What-So-Ever!

- See any Doctor or Specialist
- No Referrals needed
