

## **NEW...Medico's MyEnroller updates and benefits!**

- As of **August 1, 2013** Medico has enhanced MyEnroller to sync data across all versions of the software both online and offline
- If you use the online version in your office and also use offline version on your laptop you will now be able to view and access all of your complete and incomplete submissions in one place
- With this improved functionality for the data sync, we have also reversed how 'complete' and 'incomplete' submissions sort. You will now be able to view the most recent submissions first
- We have also enhanced MyEnroller to populate the email address through to all fields during the application process
