Discover the Ease and Innovation of e-App Storefront

E-App Storefront is specifically designed to support our Medicare supplement, dental and prescription drug plan producers. Submitting your client applications just got easier!

Whether you write hundreds of applications a year or only write them occasionally, you'll love the efficiency and benefits you gain with the e-App Storefront.

- Reduces frustration of using outdated forms
- Quick issue
- Reduces paper app supply
- Ability to download/print completed applications
- Your commissions are paid faster
- Ability to split compensation

Saving You So Much Time

We know that time is money for producers. That's why the e-App Storefront experience offers numerous time-saving features. You may never go back to using paper applications.

- See quotes for multiple products
- Underwriting rules are automatically applied

- FDA database for prescription drugs and dosages is listed if needed
- One signature covers all forms for you (if you have bundled products, your client will still have to sign them separately)
- Answers to simple questions reveal only the additional questions your client needs
- Dashboard showing all your applications and progress across multiple Senior Health product lines
- VeriSign™ secured for sensitive information

Cross-Selling Made Convenient

E-App Storefront makes the application process easier for great cross-sells like dental and prescription drug coverage. Once you enter your client's information on one application, the details automatically transfer to other applications you submit for them. It couldn't be more convenient!
