STATE RELEASE

National Health Insurance Company is excited to announce that starting February 15, 2010 the National Solution Hospital Surgical PPO Plan will be available to market in Wisconsin. The E-App software will be available to use in Wisconsin on February 15th. The marketing forms for Wisconsin are standard and you can use the marketing materials you have on your shelves.

However, the state of Wisconsin Small Employer laws will not allow the use of the combined billing form for an individual health insurance policies, written on risks or operations in the state, providing coverage for employees of a small employer, or employees of a small employer and the employer when 3 or more are sold to or through a small employer.

To obtain the rates on the E-App software for Wisconsin, please remember to update the E-App software with an active internet connection so that the software will ensure your software contains the most current version.

If you have any questions or concerns regarding this release please contact Donna Gigliotti, donna.gigliotti@nhic.com.
